Information

Printing - Where possible please present your work in a single PDF file. The benefits of using PDF are:

- Formatting stays constant across all computers.
- We can print it faster if it's in its entirety as one file.
- It will be cheaper. (We will charge if we have to open more than 5 files and may charge computer time if you need to fix your document).
- It's free!! www.cutepdf.com or new versions of Word and OpenOffice have it built in.

We accept your documents on USB, CD and email.

Binding - We offer plastic and wire *soft binding* with a clear cover and various coloured backs. Our plastic bind can take up to 450 pages and wire up to 130 pages. Our turnaround time is usually 1 hour though we have express options at extra cost.

Hard binding is an outsourced service. Your document needs to be with us by 11.30am to be collected by the book binder. This service requires payment on the day you leave it with us. We can bind for universities all over the UK.
